

# 'ARCHANGEL GABRIEL' HIGH SCHOOL MKATA PROJECT

With your help we will build a

## MODEL SECONDARY SCHOOL

in the rural areas of Mkata

### BACKGROUND

This project is part of rural **FORMAL AND FUNCTIONAL ADULT EDUCATIONAL ORGANIZATION**

**(Reg. No.21NGO/R/1852)** which is a fully registered and mandated organization to fight against illiteracy and uplift educational standards in Tanga region in particular and the country (Tanzania) in general.

Tanga region has suffered the same problem of lack of quality, competitive and motivational education. Therefore its the very reason why me and you have taken a timely decision to put a long lasting mark in Tanga region by constructing a model secondary school in the rural areas of Mkata, Handeni District, Tanga region,TZ

### VISION

Reduced and later eliminate the high number of illiterates in rural areas, especially in girl child where early marriages and early pregnancies have proved a great risk to their lives because of lack of knowledge hence, creating generational extended poverty in societies. This can be achieved through accessing rural communities with good, motivational and conducive leaning environment.

*Today: Children at a rural school located in the neighborwood of Mkata*

*Future: Proposed classroom for 'Archangel Gabriel' High School Mkata*

### LOCATION

Mkata, Handeni District, Tanga Region,  
(9kms along Pangani-Kwamsisi Road)  
Phone: +255717307744  
+2557482296039

Mkata Town

### FOCUS

It will a mixed school (girls and boys) but emphasis put on girl child, to the fact that mothers are strong pillars of national Development, also not forgetting other vulnerable groups like, the disabled and orphans.

*A group Photo for village Girls and Boys yawning for quality education*

## TEACHING SUBJECTS

The school is to teach all subjects as guided by the Tanzanian national Curriculum but with a difference that practical teaching is given more emphasis over theoretical, Subjects Considered: **Agriculture, Biology, Physics, Chemistry, Mathematics, Accounts, Geography, History, Language, Political education**

**Extras:** Technical drawings, Fine/art and music dance and drama

Practical teaching enables students to acquire necessary elementary skills which can mentor them into highly skilled personnel and also helps to discover their hidden God given talents, hence producing directly beneficial candidates to national Development.

*Experimetary Chicken Project for students and Historical House*

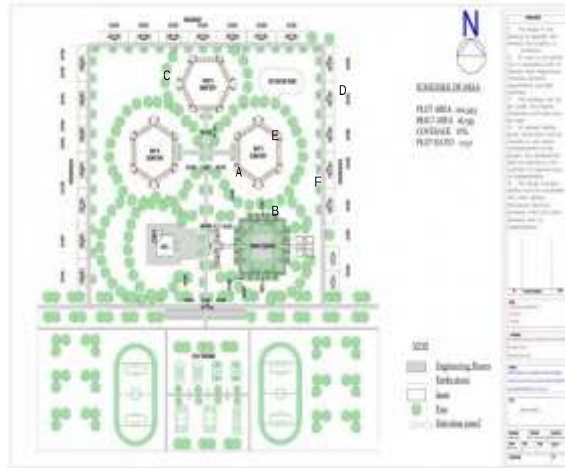

## SIZE OF THE PROJECT

The school establishment is to cover a total area of 50 acres.

10 acres is for building construction, Where well spaced classrooms with conducive learning environment are to be built., Reservation of enough space for recreation facilities, space for farming and gardening. The school is to be built far away from traffic pollution and other disturbance, this

gives students maximum concentration on their studies.

The project will be constructed in phases and the following are the priorities for phase one: **Administration Block, two classroom block, two dormitories (girls and boys) , Two staff houses and two toilets.**

## SCHOOL CONSTRUCTION

With the help of well-wishers and friends from local and international levels, we are on a forefront to construct a **model secondary school** with well furnished boarding facilities and classrooms, favorable and with conducive learning environment where special technologies are to be applied for example, use of - **Green concrete technology** which is environmentally and economically friendly, - **Biological treated Toilets** for long term and good hygienic environment, - **Solar Power'** alternative, which is dependable, where long lasting panels are to be installed.

*Ongoing Construction of mobilization Centre for green concrete technology Research*

## ACHIEVEMENTS SINCE 2020

- Securing project land (**50 acres**)
- Clearing it to 100% readiness for use.
- Registration of NGO (**Reg.Na.21/NGO/R/1852**).
- Registration of Archangel Gabriel High School Mkata (**Reg. No. 486625**) with business Registration and licensing Authority (BLELA).
- Excavation of a water Dam – water for construction.
- Meeting local leaders , elders and other communities at large for their involvement.
- 5 acres of the project land was put under cultivation, **4.2 tones** of maize harvested this very year.
- Simple chicken project is going on (for provision of eggs and experimental studies for student)
- Ongoing construction of site offices and mobilization center for **green concrete technology** research.
- Members have received sensational seminars about new introduced technologies e.g green concrete technology which is environmentally and economically friendly.
